

Interim Repairs of BQE over Joralemon St

NYC Department of Transportation will undertake critical repairs of the deck joint and north abutment of the bridge over Joralemon Street as part of the BQE corridor from Atlantic Avenue to Sands Street interim repairs. These repairs will help to ensure the safety and continued lifespan of this vital transportation artery.

Scope of work:

- Remove deteriorated concrete, add rebars and place new concrete on the north abutment and column.
- Repair deck joint on the BQE to prevent leakage.

Traffic Impacts:

- BQE – Queens bound nighttime single-lane closures for joint repair
- Furman Street: single lane closures to allow for contractor staging and storage areas with flaggers to maintain two-way traffic
- Joralemon Street: single lane closures and north sidewalk closures while maintaining access to all buildings
- Removal of two parking spaces

Construction Schedule:

- Estimated start date: Week of September 15
- Work hours: Monday to Friday from 6:00 a.m. to 3:00 p.m.
- Anticipated duration: 6 months
