

Community Fridge Cleaning Guide

Bring, if you can: paper towels, disinfectant spray/wipes, trash bags, gloves

Cleaning Steps

- 1 Wipe down inside shelves, drawers, and the door.
- 2 Remove spoiled, moldy, leaking, or suspicious items. When in doubt, toss it. Place in garbage bags and bins.
- 3 Remove any raw meat, poultry, or seafood. Place in garbage bags and bins.
- 4 Check that home-cooked meals are labeled with dates and allergens (unlabeled items must go).
- 5 Make sure the fridge is working (door closes, feels cold). If not, email us.

Trash Bins: Once bins are available, Sunday, Tuesday & Thursday PM shifts take bins to the curb.

Please avoid leaving loose or overflowing bags near the fridge overnight while we finalize a longer-term solution.

Need Backup?

For big messes or issues that need extra help, email us and we'll send reinforcements ASAP!
